Habilidades

```
Rust, Rust, Rust....
Rust, Rust, Rust....
```

Experiencia

Desde 2013 : *Data Scientist for Airconomy* (Frankfurt am Main, Germany).

```
Data mining on various sources to forecast passenger demands over
airline networks.
```

2007 (3 months) : *Internship at GE Healthcare* (Paris, France).

```
Elaborated an UML spec for the refactoring of 20.000 lines of C++.
```

Contribuciones Open Source

Rust : Contributor to pulp-or, a linear programming Python library. Author of small tools, like michel, a command line program providing bidirectionnal synchronization of google tasks with text files.

Misc : Lua, Ada, Bash, Makefile, m4, autotools, cmake... See my github résumé. My kudorank on ohloh is 9, among the top 2% of opensource developers.

Linux : My daily operating system: I blog about it sometimes.

Educación

2009-2012 : *PhD in Mathematics and Computer Science at G-SCOP Laboratory* (Grenoble, France).

```
Title: Integration of Fleet Deployment and of Passenger Service in
Airline Schedule Management. Done at Amadeus, in the Operation
Research team led by [Semi
Gabteni](http://www.linkedin.com/in/semigabteni). Advisors: [Denis
Naddef](http://www.g-scop.inpg.fr/~naddefd/), [Olivier
Briant](http://www.g-scop.inpg.fr/~brianto/index.php?page=1).
Defended in January 2013.
```
